

CYBERSECURITY. SIMPLIFIED.

Inspira Corporate Profile

March 2026

Advisory

Transformation

Operations

CYBER RESILIENCE. END-TO-END.

Inspira empowers enterprises to design, transform, and operate modern cybersecurity and enterprise intelligence— at scale and at speed.

We bring together **strategy, architecture, engineering, and AI-driven** services to help organizations stay resilient against today's threats and tomorrow's unknowns.

01.

- Cyber Advisory, Compliance & Transformation

02.

- AI-Powered Cyber Defense via our Global Cyber Fusion Centres

03.

- Modernize Identity-first Security Foundations: Secure, Seamless & Scalable

04.

- Cloud, Infrastructure & Platform Security Acceleration

05.

- Continuous Exposure, Threat & Vulnerability Management

06.

- Safeguard Data, Applications & OT/IOT environments

07.

- Managed & AI-Driven MDR & SOC Services

08.

- ServiceNow – Enterprise Control & Intelligence – IRM, GRC, SecOps

BUILT FOR TRUST

Customer-first delivery

AI-accelerated security maturity

Deep partnership & OEM ecosystem

Proven enterprise outcomes across Fortune 500 & global enterprises

18+

Years of Experience

1500+

GLOBAL FOOTPRINT

LOCAL. EVERYWHERE.

NORTH AMERICA

- USA – Westlake
- Canada - Toronto

MIDDLE EAST & AFRICA

- UAE – Dubai & Abu Dhabi
- Oman – Muscat
- KSA – Riyadh
- Kenya - Nairobi

INDIA

- Mumbai, Bangalore, Delhi, Chennai, Pune, Hyderabad, Kolkata, and more

ASEAN

- Singapore
- Philippines – Manila & Taguig
- Australia

5 GLOBAL FUSION CENTERS

- Mumbai and Chennai, India
- Dubai, UAE
- Dallas, TX, US
- Manila, Philippines

CYBER FUSION CENTER (AI SOC)

HUMAN EXPERTISE. AUTONOMOUS INTELLIGENCE

AI SOC - Self-learning, context-aware defence ecosystem

- Ai-augmented triage & investigation
- Adversarial AI defence
- Ai-enhanced threat hunting
- Continuous threat exposure management (CTEM)
- Autonomous intelligence fusion and response

Multi-tenanted, segregated, 24/7 secured, customized
Cybersecurity as a Service

Advanced Security Analytics & Threat feed powered by
best of AI breed technologies + iSMART2 Dashboard

vCISO, vDPO, TPRM, IAM, Threat
Management as-a-service

US | UAE | Philippines | India

HOW WE CREATE IMPACT

• OUTCOMES. OPTIMIZED.

Faster detection & response with AI

Security embedded, not added

Business Impact driven

Compliance without complexity

Optimized security spend

AI-DRIVEN. OUTCOME-FOCUSED. GLOBAL.

HEALTHCARE & BIOTECH

- Protect Patient & Org. Safety
- Safeguard Sensitive Health Data
- Secure Digital Connected Devices

ENERGY & UTILITIES

- Secure IT-OT, Smart Grid Ecosystems
- Resilience, Operational Continuity
- Meet Regulatory & Safety Mandates

PUBLIC SECTOR

- Protect Critical Infra & Services
- Safeguard Citizen Data
- National Security & Governance

BANKING & FINANCIAL SERVICES

- Protect financial Assets, Audit & Compliance
- Early Detection, Rapid Response
- Enable Secure Digital Banking

RETAIL, MANU. & LOGISTICS

- Secure Omnichannel & Supply Chain
- Protect Customer Trust/Identities
- Safeguard OT & IOT Security

TELCO, MEDIA & TRANSPORT

- Protect Digital Platforms
- Privacy & Compliance
- Secure Cloud Native Ecosystems

AI-POWERED PORTFOLIO

SECURITY, REIMAGINED.

ADVISORY

- AI Governance
- Cyber Risk Assurance
- Audit Readiness Services
- Data Privacy & Protection
- Business Continuity & Cyber Resilience
- Security Architecture & Engineering

TRANSFORMATION

- Cloud & Infrastructure Security
- OT/IoT Security
- Identity & Access Mgmt. & Governance
- Intelligence-driven Cyber Defense
- Threat & Vulnerability Management
- Data Security & Protection
- Microsoft Security
- Data Security Posture Management (DSPM/SSPM)
- Cloud-native AppSec (CNAPP/ DevSecOps) as a Service
- AI Security & Governance

OPERATIONS

- Cyber Fusion Center - Managed Detection & Response
- Managed Security & Risk
- Managed Cloud & Infra Security
- Managed Digital Trust
- Managed Application Security
- Managed External Attack Surface Management (ASM)
- Managed Continuous Threat Exposure Management (CTEM)

WHAT WE DELIVER

01

CYBER ADVISORY, COMPLIANCE & TRANSFORMATION

Strategy-led advisory covering maturity assessments, regulatory readiness, Zero Trust roadmaps, and board-level cyber resilience programs.

03

IDENTITY-FIRST SECURITY FOUNDATIONS

Secure, seamless, and scalable identity programs covering IAM, PAM, Zero Trust, and Identity Threat Detection & Response (ITDR)—protecting the new perimeter: identity.

05

CONTINUOUS EXPOSURE, THREAT & VULNERABILITY MANAGEMENT

Proactive discovery, prioritization, and remediation of cyber risks across IT, cloud, and external attack surfaces-focused on what attackers can actually exploit.

07

OT/IOT & CRITICAL INFRASTRUCTURE SECURITY

Specialized protection for industrial, manufacturing, and critical environments—ensuring safety, availability, and cyber resilience without disrupting operations.

02

AI-POWERED CYBER DEFENSE

Advanced AI/ML-driven detection, response, and threat hunting across endpoints, networks, cloud, identity, and data-delivering faster outcomes, fewer false positives, and continuous protection.

04

CLOUD, INFRASTRUCTURE & PLATFORM SECURITY ACCELERATION

Secure cloud journeys across leading OEM ecosystems-spanning cloud posture, workload protection, DevSecOps, and hybrid infrastructure security.

06

DATA, APPLICATION & DIGITAL TRUST PROTECTION

Safeguarding sensitive data, modern applications, APIs, and AI through intelligent automation, governance, and privacy-by-design security controls.

08

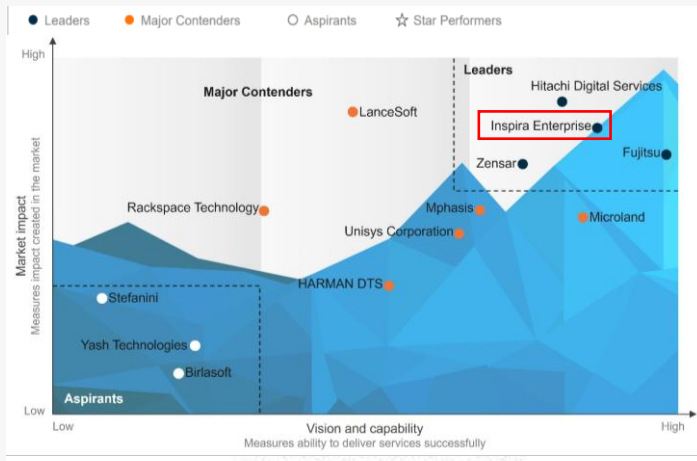

RUN & OPERATE: MANAGED & AI-DRIVEN SOC SERVICES

24x7 managed detection and response, AI-SOC, incident response, and continuous optimization-delivered through global cyber fusion centers.

Inspira & ServiceNow

Security Embedded, Not Added.

The Inspira Way: Integrate & Control

Inspira's Security-First ServiceNow Practice transforms disconnected security tools, siloed IT workflows, and manual compliance processes into a single, intelligent, compliance-ready platform — built for enterprises demanding speed, control, and confidence.

From Workflow Orchestration to AI Enterprise Intelligence & Control.

Workflow Automation | **AI Automation** | **SecOps & AI Control**

STRATEGY TO STEADY STATE

Inspira Delivers the Full Journey.

Inspira dedicated COE for ServiceNow - **ICNOW** delivers across all ServiceNow towers — engineered as an integrated intelligence layer, not a collection of modules.

01

Advisory & Consulting

Maturity & readiness assessment.
Platform, process & people gaps identified.

02

Build

Greenfield implementation or migration. SecOps & AI automation architected first.

03

Operate

Managed services, 24x7 platform support, SLA governance & continuous optimization.

04

Optimize

AI-powered enhancements, new module expansion, executive reporting dashboards.

Start with a Maturity Assessment

In 4 weeks, Inspira's security architects will benchmark your current SecOps posture against industry best practice, identify your top 3 risk gaps, and deliver a concrete ServiceNow transformation roadmap**

** Speak to your Inspira sales executive

SECURITY EMBEDDED, NOT ADDED

servicenow®

inspira®

Native to Workflows

- Security controls live inside ITSM, ITOM and GRC processes — not beside them. Every ticket, change and asset carries live risk context from the moment it is created.

Auto-Remediated

- When a vulnerability, misconfiguration or incident breaches threshold, ServiceNow triggers the remediation workflow automatically — limited human hand-off required.

Business-Impact Driven

- Every security metric ties to a business service: revenue, compliance posture, operational continuity. CIOs and CISOs see risk in board language, not just CVE counts.

Inspira's Security-First ServiceNow approach unifies AI Automation, ITSM, SecOps and GRC into one measurable platform — built for CISOs & CIO's.

REAL RESULTS. DELIVERED.

FINANCIAL SERVICES

- 80% Faster Response
- Insider Threat Detection
- SIEM Optimization

RETAIL

- Secured 17,000 Outlets
- Enhanced Security Posture
- Reduced Cyber Threats

PUBLIC SECTOR

- Increased Cyber Resilience
- Enterprise NOC & SOC Build
- Advisory - Best Practices

CASE STUDY

RISK. REFRAMED.

CLIENT

Multi-speciality US Healthcare Services
Organization

CHALLENGES

- Expanding patient data (PII, EHR & financials)
- Legacy vulnerabilities
- Vendor sprawl
- Poor cybersecurity hygiene

SOLUTIONS DELIVERED

- vCISO advisory
- 30-day risk assessment
- Vendor & budget rationalization (trusted vendors + clear service level agreements)
- Staff training on best practises

IMPACT

- \$5M saved in year 1
- \$19 M forecast over 3 years
- 2-year IAM & DLP roadmap

CASE STUDY

SECURITY. OPTIMIZED.

CLIENT

Oil & Gas Enterprise

CHALLENGES

- Identify the GAP with existing security landscape
- Optimize cost without compromising security
- Underused Microsoft E5
- Reduce attack surface, enhance data security & compliance
- Skill gaps

SOLUTIONS DELIVERED

- Security gap assessment
- Identity & security baseline hardening
- Data classification, rights management & DLP
- M365 E5 consolidation

IMPACT

 \$500K annual savings

 Zero license sprawl

 Improved security baseline

 Process & transformation skill enhancement for IT & security teams

CASE STUDY

THREATS. STOPPED.

CLIENT

East African Corporate & Retail Bank

CHALLENGES

- Insider threat exposure, rising ransomware risks
- Fragmented visibility: cloud, applications & infrastructure
- Growing ecosystem creates new attack surface

SOLUTIONS DELIVERED

- SIEM tuning for hi-fidelity alerts
- AI-driven automated triage
- Local threat intelligence source integration

IMPACT

- 80% faster incident response & mitigation
- Early insider threat detection
- Improved unified visibility across hybrid workloads

CASE STUDY

SOC. STREAMLINED.

CLIENT

Large Global Bank

CHALLENGES

- Alert fatigue
- Legacy correlation rules
- Audit pressure

SOLUTIONS DELIVERED

- Custom correlation rules & parser development
- SOC fine-tuning with automated alert triage
- Compliance dashboards

IMPACT

65% fewer false positives

Automated compliance workflows

Faster audits

Real-time critical threat insights
(VPN anomalies, credential misuse)

CASE STUDY

RANSOMWARE RESILIENCE. ASSURED.

CLIENT

Global Biopharma Leader

CHALLENGES

- Targeted ransomware attacks
- Limited threat visibility
- Legacy endpoint defenses

SOLUTIONS DELIVERED

- Comprehensive gap analysis
- Tailored security policies
- Proactive threat hunting & patch management
- Early attack identification strategy
- EDR deployment and integration

IMPACT

- Enhanced ransomware defense
- Strengthened security posture & threat visibility
- Reduced dwell time & downtime
- Reduced attack surface

SECURITY. WITHOUT FRICTION.

DESIGN SMARTER.

RESPOND FASTER.

OPERATE STRONGER.
