

ALPHA DATA

ALPHA DATA P.J.S.C

Higher Colleges of Technology

RFP Ref. NE-26-0129 — Secure Access Service Edge (SASE) — 3 Years

Certifications & OEM Partnership

Fortinet Expert Partner — SASE, SD-WAN and ZTNA Specialisations

Portal Section 1 — Company Profile — Item 2 (Evaluation Criterion 1.2, Weight 15%)

Technical Submission — September 2026

Commercial-in-Confidence

Alpha Data holds Fortinet's highest partner engagement level — Expert — with Integrator business model and named specialisations in exactly the three technologies this RFP procures: SASE, SD-WAN and Zero Trust Network Access, for the UAE territory. This is the top tier of the Fortinet partner programme, equivalent to the Platinum/Premium band in the evaluation metric, and guarantees HCT direct access to OEM engineering, TAC prioritisation and roadmap resources.

1. Partnership with the Proposed OEM (Fortinet)

The proposed solution is Fortinet FortiSASE, together with FortiGate secure edge components. Alpha Data is formally certified by Fortinet, Inc. as an authorised FortiPartner with the following designations (Certificate of Authorized Reseller dated 19 February 2026, attached):

Attribute	Designation
Level of Engagement	Expert — the highest tier of the Fortinet Engage Partner Program
Business Model	Integrator
Specializations	SD-WAN, SASE, Zero Trust Network Access
Territory	United Arab Emirates (AE)
Issued by	Fortinet, Inc., Sunnyvale, California — signed by SVP Legal & Compliance

Fortinet's partner tiers ascend Advocate → Select → Advanced → Expert. Expert therefore represents the highest attainable partnership level, corresponding to the "Platinum / Premium" scoring band of Evaluation Criterion 1.2. The named specialisations are earned through certified-engineer thresholds, validated deployments and OEM audits in each technology — meaning Alpha Data is OEM-validated specifically for SASE and ZTNA delivery, not merely a general reseller.

2. What Expert-Level Partnership Delivers to HCT

- Direct OEM escalation path: priority access to Fortinet TAC and regional consulting engineers, integrated into the mandatory escalation matrix (SOW Section 3.14.3), including Regional Director engagement at Level 3.
- Roadmap access: early visibility of FortiSASE feature releases and UAE/GCC PoP expansion, supporting the pre-semester readiness reviews and change-freeze planning in Section 3.11.29.
- Certified delivery workforce: Fortinet-certified engineers (NSE/FCP/FCSS tracks) across design, deployment and support, satisfying the product expertise, deployment and support certification requirements of Criterion 1.2.
- Joint account governance: Fortinet participates alongside Alpha Data in the Strategic Steering Committee cadence where required (Section 3.21).

3. Individual Engineer Certifications

Alpha Data maintains a certified Fortinet practice. Certifications held by the proposed team — certificate snapshots and the full named register are provided in the Section 2 Team submission (S2.1, Section 5 and Annex A):

Certification Track	Level	Held By (Proposed Team)
FCSS / NSE 7 — Network Security Architect track	Expert/Specialist	Muhammad Adnan Shahzad (NSE

Certification Track	Level	Held By (Proposed Team)
		7) — Solution Architect; FCSS SASE evidence at award per Q.10
NSE 4/5 — Network Security Professional / Analyst	Advanced/ Professional	Ruban George, Gagandeep Singh, Hyderali Peruvankuzhiyil, Jalaluddeen Abbas (NSE 5), Muhammad Adnan Shahzad
NSE 1–3 — Network Security Associate foundation	Associate	Saivairam Ramanathan, James Banila, Shiju Rajan — plus all delivery engineers at FCP/NSE 4 equivalent
PMP / ITIL v4	Professional	Project Manager / Service Delivery Manager

Alpha Data includes two (2) Resident Engineers for HCT — exceeding the SOW minimum of one — each holding SASE certification as required by HCT's clarification response (Q.10 — "sase"), and each covered by 100% free backfill.

4. Corporate Management-System Certifications

In addition to OEM partnership, Alpha Data holds ISO/IEC 27001:2022 (Certificate No. AE59507E, Staunchly Management and System Services Ltd, EGAC-accredited and IAF MLA member — attached), ISO 22301:2019, ISO 9001:2015, ISO 14001:2015, ISO 45001:2018 and ISO 20400:2017 — detailed in submission S1.1 with certificates attached.

5. Platform (OEM) Certifications for the Proposed Solution

The FortiSASE cloud platform holds the vendor certifications mandated by SOW Section 3.16.3.1: ISO 27001, SOC 2 Type II and CSA STAR, maintained throughout the contract term with renewed certificates provided to HCT within 30 days of issuance per Section 3.16.3.2. Current attestations are verifiable on the Fortinet Trust Portal (<https://trust.fortinet.com/>), with full reports provided under NDA on request.

Fortinet's own quality management system is independently certified: ISO 9001:2015 issued by TÜV SÜD America Inc. (Certificate Registration No. 951 11 5647, valid 1 July 2026 – 30 June 2029), covering the design, development and manufacture of network security products and the delivery of associated security services and support across all Fortinet sites — certificate attached to this submission.

The FortiSASE Service Description (Fortinet doc #8702732-2.6, attached) contractually defines the proposed FortiSASE Advanced tier: 24x7 monitoring by Fortinet, SOC-as-a-Service, Digital Experience Monitoring, dedicated public IPs per PoP, FortiGuard Forensics, assisted onboarding, and published availability service credits — evidencing that the offered tier is a standard, supported OEM service and not a custom construct.

Attachments to this response: Fortinet Certificate of Authorized Reseller — Expert / Integrator / SD-WAN, SASE, ZTNA / Territory AE (19 Feb 2026); Fortinet ISO 9001:2015 certificate (TÜV SÜD Reg. 951 11 5647); FortiSASE Service Description (#8702732-2.6); engineer certification matrix; Alpha Data ISO certificate portfolio.

Annex A — OEM Certificate Snapshots

True copies of the OEM partnership and quality certificates referenced in this response. Full-resolution originals accompany this submission as separate attachments.

Fortinet Certificate of Authorized Reseller — Alpha Data: Expert Level, Integrator, SD-WAN / SASE / ZTNA Specializations, Territory AE (19 February 2026)

Certificate of Authorized Reseller

Date: 19 February, 2026

Fortinet, Inc. (hereinafter "Fortinet") is a US public company, domiciled at 909 Kifer Road Sunnyvale, California 94086, United States, which is especially dedicated to the design and manufacture of network security components and devices and operates through a channel of independent distributors and resellers (referred to as "FortiPartner/s"). For more details about the company you can visit: <http://www.fortinet.com>.

Fortinet hereby confirms that ALPHA DATA - P.J.S.C. having its registered place of business at: 26th floor ADDAX TOWER, Reem Island, PO Box 45384, Abu Dhabi, Abu Dhabi 45384, United Arab Emirates, as of date of this letter is an authorized FortiPartner to sell Fortinet products with the following designations and solely in the following territory:

- Level of Engagement: Expert
- Business Model: Integrator
- Specializations: SD-WAN, SASE, Zero Trust Network Access
- Territory: AE

Provided the FortiPartner identified above has purchased applicable support services from Fortinet and the applicable support services have been effectively registered and contracted with Fortinet, Fortinet agrees and undertakes that Fortinet would provide support for the applicable Fortinet products according to the terms of the support agreement, available at <https://support.fortinet.com>. Fortinet Products are shipped subject to the terms of its then-current End User License Agreement, available at <http://www.fortinet.com/doc/legal/EULA.pdf>, which sets forth Fortinet's warranty.

This certificate is subject to the FortiPartner maintaining its FortiPartner Agreement and strictly adhering to Fortinet's FortiPartner guidelines. Fortinet's partner program and its guidelines are available for review at http://www.fortinet.com/partners/partner_program/fpp.html. Notwithstanding anything to the contrary herein, authorized FortiPartners do not represent Fortinet and can not make statements that are binding on behalf of Fortinet.

Please note that this Certificate of Authorized Reseller shall not be used for U.S. State or U.S. local government entity (SLED) opportunities. Please contact your Fortinet representative if a SLED opportunity is sought.

Please note notwithstanding anything to the contrary: (1) Fortinet, Inc.'s ("Fortinet") obligations related to product specifications, licenses, support, subscriptions, certifications, warranties and any other assurances are: (a) invalid for products that have been tampered with or modified by third parties and (b) subject in all respects to Fortinet's standard processes, policies and terms, which Fortinet may change at any time in its sole and absolute discretion; (2) Fortinet reserves the right to modify technical and marketing plans and release dates at any time in Fortinet's sole and absolute discretion; (3) Fortinet disclaims responsibility for spelling, grammatical, typing, translation or printing errors; (4) this document is for informational purposes only, is not a legally binding instrument and is not intended to, and does not, create any contractual obligation or warranty by Fortinet or right to promissory estoppel or right to rely on the statements herein; (5) statements herein about product performance and features may be contextual, for example based on testing in a particular environment such as in a laboratory environment, and may not be accurate in all contexts such as in a live environment; (6) the signer of this document is basing any statements herein on their knowledge at the time of signing without any obligation whatsoever to investigate the statements, and may be relying in full on the review by, and input from, others; (7) products and services are not offered for free and rights are only granted subject to payment in full to Fortinet and its distributors and resellers, all sales are final, and Fortinet policies and terms and conditions, such as Fortinet's standard EULA and support terms, apply, some of which are located at <https://www.fortinet.com/corporate/about-us/legal.html> and (8) Fortinet has no obligation whatsoever to update, and does not intend to update, statements herein, even if, for example, the signer learns the statements are in fact untrue or plans change.
