Senior Security Consultant - Technology Lead

PERSONAL DATA

-  **Year of birth:** Nov-1992
-  **Nationality:** Indian
-  **Languages:** English, Hindi & Malayalam
-  **Education:** B.Tech in Electronics and Communication Engineering

EXPERIENCE

-  Operational Management
-  Security Consulting
-  Implementation
-  Process Management & Best Practices
-  Advanced Troubleshooting
-  Policies & Procedures
-  Conducting Technical Presentations
-  Technical documentation

CERTIFICATIONS

- (i) CISSP
- (i) Fortinet NSE 7 Network Security Architect -Enterprise Firewall 7.4
- (i) FortiSASE Specialist
- (i) Fortinet NSE 7 Network Security Architect -SDWAN Architect
- (i) Palo Alto Cyberforce Hero
- (i) Palo Alto Networks Certified Network Security Consultant
- (i) Palo Alto Networks Certified Network Security Engineer
- (i) Fortinet Fortinet NSE 6 - Secure Wireless LAN
- (i) Fortinet NSE 6 - Cloud Security
- (i) Fortinet NSE 5 Network Security Analyst
- (i) Fortinet NSE 4 Network Security Professional
- (i) Microsoft Certified: Azure Security Engineer Associate
- (i) Microsoft Azure Fundamentals
- (i) Certified Meraki Networking Associate
- (i) Cisco Certified Network Associate
- (i) Zscaler Certified Cloud Administrator - Internet Access
- (i) ITIL 4 Foundation
- (i) Juniper Networks Certified Internet Associate-Junos
- (i) Netskope Administrator Accreditation
- (i) Palo Alto - Cyberforce Guardian
- (i) FortiMail- Hero

DEEP AND BROAD KNOW-HOW

- (i) Palo Alto Firewalls and Panorama
- (i) Fortigate Firewalls
- (i) Fortinet SDWAN,
- (i) FortiSASE - SIA, SPA and SDWAN On Ramp
- (i) Sandbox-Fortinet
- (i) NDR - Vectra, FortiAI
- (i) F5 (LTM,ASM)
- (i) Algosec Firewall Analyzer
- (i) Zscaler Proxy
- (i) Microsoft Azure
- (i) AWS
- (i) Cisco Meraki
- (i) Aruba Clear Pass

- (i) SonicWALL Firewalls
- (i) Cisco FMC and FTD
- (i) Netskope SSE
- (i) Prisma cloud CSPM

EMPHASIS ON WORK

- (i) Design, concept development, technical positioning and implementation services for complex network infrastructure environments
- (i) Experience of implementing PaloAlto, Fortigate ,F5 LTM
- (i) Security design for intra LAN segmenting firewalling and encryption
- (i) Managing perimeter and web application firewalls
- (i) Redesign LAN/WAN
- (i) Network segmentation in several security Zones
- (i) Extending high-end technical support on various issues related to networking and switching
- (i) VPN Setup and troubleshooting
- (i) Complete Review of the existing Network & Security Design
- (i) Complete Review of the LAN / WAN Reliability Focus
- (i) Network Load Balancing

RECENT PROJECT EXPERIENCE

- (i) SDWAN with FortiSASE - 3 Hub locations, 48 Spoke location and FortiSASE.
- (i) FortiSASE with 1150 users
- (i) Global Protect implementation with 4 Gateway in 4 continents and a central Portal in EU. Users will be connecting to the nearest geographical gateway post the HIP check and SAML authentication
- (i) Palo Alto Firewall review and security posture enhancement using AlgoSec Firewall Analyzer
- (i) Replacement of MPLS with Fortigate SDWAN in 82 locations across UAE, KSA and OMAN.
- (i) Central WLAN deployment in 18 locations in UAE with Cisco Meraki MR Series with Enterprise authentication
- (i) DC revamp, replacing Cisco ASA with Palo Alto and F5 WAF
- (i) DC migration from Cyberoam to Sophos XG firewall with 12 WAN Component.
